> The following Letter has been received from the Secretary of the "CARLTON" CLUB. CARLTON CLUB, Dec. 20, 1875. Club is approved by the Members, the best answer I can give is that the consumption of this Whiskey in the Club has GREATLY INCREASED since it has been supplied by your firm. There can be no doubt whatever about the Whiskey being MOST EXCEL LENT. It is Old and Soft, and I may safely

say that it is much approved by the Members.

Yours obediently,

W. GRIEFIN SUTTON. Secretary. CAUTION: It has come to the knowledge of the Shippers of the "CARLTON" WHISKIES, that the empty Bottles have been dishonestly refilled with the polsonous trash very often sold in China under the name of Whiskey, this is therefore to caution consumers to CAREFULLY EXAMINE the CORKS and CAPSULES to see they have not been tampered with; also that the Corks, Capsules, and Labels are branded with their Trade Mark.

HONGKONA, JULY 12TH, 1884.

No farther development of the Franco-Chinese imbroglie has yet transpired, but it seems perfectly clear, from the latest intelligence received from the North, that the Langson affair was no mere accident It is roundly asserted that the attack near Langson was instigated by the War Party at. Peking with the deliberate design of overthrowing the Convention of Tientein, the terms of which they strongly disapproved. The Courier says the general impression is that Admiral Pence Yu-LIN and Tabne Yu-Ying, the Viceroy of the Yun-kwei provinces, organised the attack on the French troops. The French offi- four ports opened to foreign trade by the Chefor cial statement is that a French column under . The Chinese replied ther it will strike the continent before it recurves that they could not do so without an order and passes towards Japan. from the Futai, whereupon the French fired upon them; hence the engagement. These two statements are utterly irreconcileable Who is to decide which is, the accurate version? Which nation is generally regarded as having the most regard for the truth?

But this is not the only question. The Chinese contend that the Tientsin Convention not being ratified had not come into operation, and that therefore the clause providing for the immediate recall of the Chinese garrisons in Tonquin could not reasonably be insisted upon, and any attempt to evict them would bea breach of the peace by France. This might he so provided there was no special agreement on the subject, but unless the N. C.
